www.ssttimber.com

about us

We would like to introduce ourselves as manufacturer of Wooden Pallets, Wooden Box, Supplier of Timber / Wood (Hardwood & Softwood). We have been supplying high quality Timber, wooden pallets since 1990. we are having experience of more than three decades in manufacturing of Wooden Pallets and Drums.

Our core competency is to supply high quality Wooden Pallets made from quality wood, with high density & Load bearing capacity. We are one of the largest suppliers of Wooden Pallets.

Our team thoroughly checks the logs that we procure from our reliable vendors which make us eligible to offer our clients better than their expectations. With one of the most organised and well planned facility in timber market, our production process of products ensures the reliability and good quality at a competitive market price.

With Experience of more than 4 decades in Timber industry Our main objective is to "deliver excellent value to our customers & create value for our employees & society at large", by providing unmatched satisfaction through personalized and professionalized service.

our clients

why us

Extended Capacity

- Our Pallet application ranges from 800 kg to 2 tons in dynamic conditions and upto 5 tons load capacity in static conditions.

Premium Lumber

- Sourcing best quality New Zealand , Europe, Baltic state lumber.

100% In-House Facility

- Sourcing Timber → Timber Cutting & Planing → Timber Vacuum Impregnation Process → ISPM Heat Treatment Process → Pallet assembly → Dispatch

Timber Treatment (ISPM Ht & Timber Vacuum Impregnation Chemical Treatment)

we have our Inhouse Timber Vacuum Impregnation Chemical Treatment Plant which is used to infuse Protect Chemical which helps in removing any chance of Termite generation in Timber.

This treated wood is then kept in Heat Treatment chambers in our workshop where the Timber planks are stacked and in kept for 60 Minutes at Temperature of 56 degree Celsius which reduces the moisture of the Planks to less than 20 %. Our ISPM HT LICENSE NO. is - IN - 483 HT

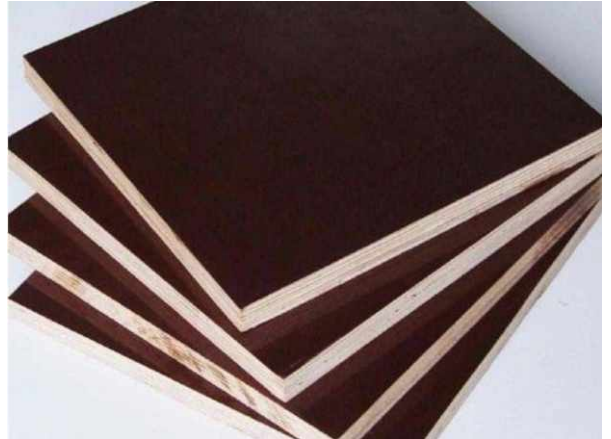

OUR PRODUCTS

Film Face Shuttering Plywood

We offer Film Faced Shuttering Plywood/ Marine Plywood/ Commercial Grade Plywood from India.

STANDARD SIZES :

- 244 x 122 cm
- 244 x 92 cm
- 184 x 122 cm
- 184 x 92 cm
- 154 x 122 cm
- 154 x 92 cm

Commercial & Marine Plywood & Flush Doors

We are Major Stockists of BWR, Commercial, Marine & Film Faced Plywood. We are having the below mentioned grades in ready stocks AA & BB grade Plywood for furniture works . Tiles Epoxy

Tiles with long-lasting effects always make your space look vivid. Go for Epoxy Grout to attain a seamless experience of living.

a) **Epoxy Shine 200** b) **Epoxy Simple 100**

FEATURES : Epoxy Grout are created by combining two distinct resins with a filler, making them waterproof and better suited to abrasive cleaning agents. They can withstand high dynamic pressure and are suitable for use in a range of temperatures as low as zero degree celsius. Epoxy Grout can also be used for a range of purposes.

Tiles Adhesive

Revox is a trusted name in the chemical and construction industry offering high-quality tiling solutions that are functional, durable, and economical. The product range includes tile adhesives, grouts, cleaners, and more designed for superior bonding strength, pliability, ease of use, long life, and low maintenance.

- A) Premium Grey Adhesive :** It is recommended to x ceramic and vitried tiles up to 800x800mm on bothoors and walls of indoor area only.
- B) Platinum Gray Adhesive (NSA) :** It is highly recommended for xing ceramic/vitried tiles up to size 800x2000mm on wall and oor indoors and for size 1200x2400mm on outdoor/external elevation also. It is also used for Fxing marble/granite on window and door seal in rooms etc. It is used for xing cement block also.

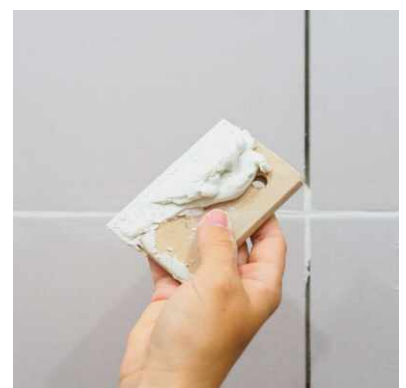

C) Premium White Adhesive :

It is recommended for laying/fixing all types of ceramic/vitried tiles of all sizes upto 800x3200mm for indoors as well as outdoors, on elevations and also for fxing marble and granite in indoors and outdoors both.

Floor & Wall Polymer Tile Grout

The floor & wall polymer tile grout is used for xing joints in between tiles. It has great adhesion (high bonding strength), water repellency capability, soft consistency, workability, and permanently seal joints, which is why it is used for grouting of tile, stone, and marble joints and edges. The remarkable properties make the Polymer Tile Grout, the number one choice for attributing spaces a nished look. It is used for both interior & exterior and is also best for renovation work. It also gives good coverage by lling joints in all kinds of ceramic and vitried tiles, stones and mosaic.

Timber (Hardwood / Softwood)

The timber division carries a wide variety of exotic timbers, plywood and the like. We cater to the leading contracting firms across the region. We offer timber wood which is known globally to resist varying weather conditions. The timber offered through us stays incredibly natural in diverse environments.

We import a significant part of our stocks directly from mills across the globe to ensure availability, quality and competitive pricing. Shree Shivsagar Traders has established itself as one of the most reputed timber importer, now having done it for almost 2 decade with operations in Jamnagar, Kandla and Ahmedabad supported by a large number of smaller regional operational flexibility in meeting diverse customer's needs.

Other infrastructure like kiln drying, chemical treatment and container loading facilities enables us to cater to various forms of Timber requirements for export.

The different types of wood are categorized as under

Hardwood : These hardwood have unique decorative properties and when kiln dried and seasoned and/or treated with certain chemicals, it improves its structural and dimensional stability and can be used for various applications. We import hardwood from

- Myanmar (Gurjan)
- Malaysia (Balau / Sal))
- Indonesia (Red & Yellow Meranti)
- Ghana / Saagwan / Burma Teak
- Other Hardwood - Babul Wood / Neem Wood / Mango Wood
- Kapoor Wood – use for External Decking|

Softwood : These softwood have unique decorative properties and when kiln dried and seasoned and/or treated with certain chemicals, it improves its structural and dimensional stability and can be used for various applications.

- Pine wood (New Zeland, Canadian , Southern Yellow Pine, Uruguay Pine)
- Treated Pinewood (in our Inhouse Treatement & ISPM Seasoning chambers)
- Treated Pine poles & Hardwood Poles

Tiles

In the world of interior design, finding the perfect tile that seamlessly fits into diverse spaces can be a challenge. However, the solution lies in the concept of a versatile tile collection where one design is available in different sizes. This innovative approach not only caters to aesthetic preferences but also offers flexibility in adapting to various architectural layouts.
